

Show all records in a few clicks

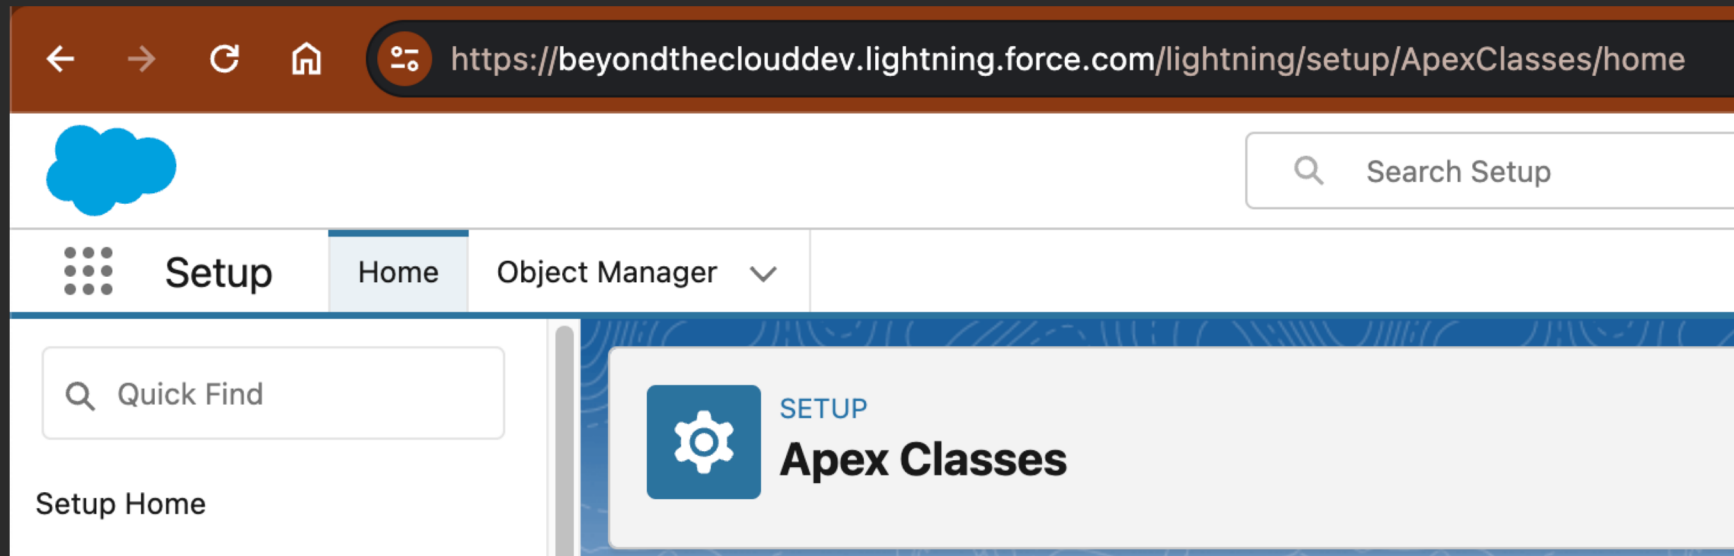

How many times you were frustrated by clicking
“Show me more records”
multiple times until you saw the full list or found the right record?

Show me fewer ▲ / ▼ more records per list page

There is a simple trick to show all records on the page

When you open a new page (i.e. Apex Classes)
you see a URL similar to the one below

Scroll down and click on "more" one time

a	36,0	Active	657
a	34,0	Active	321
a	36,0	Active	1 820
a	36,0	Active	682
Show me fewer ▲ / ▼ more records per list page			

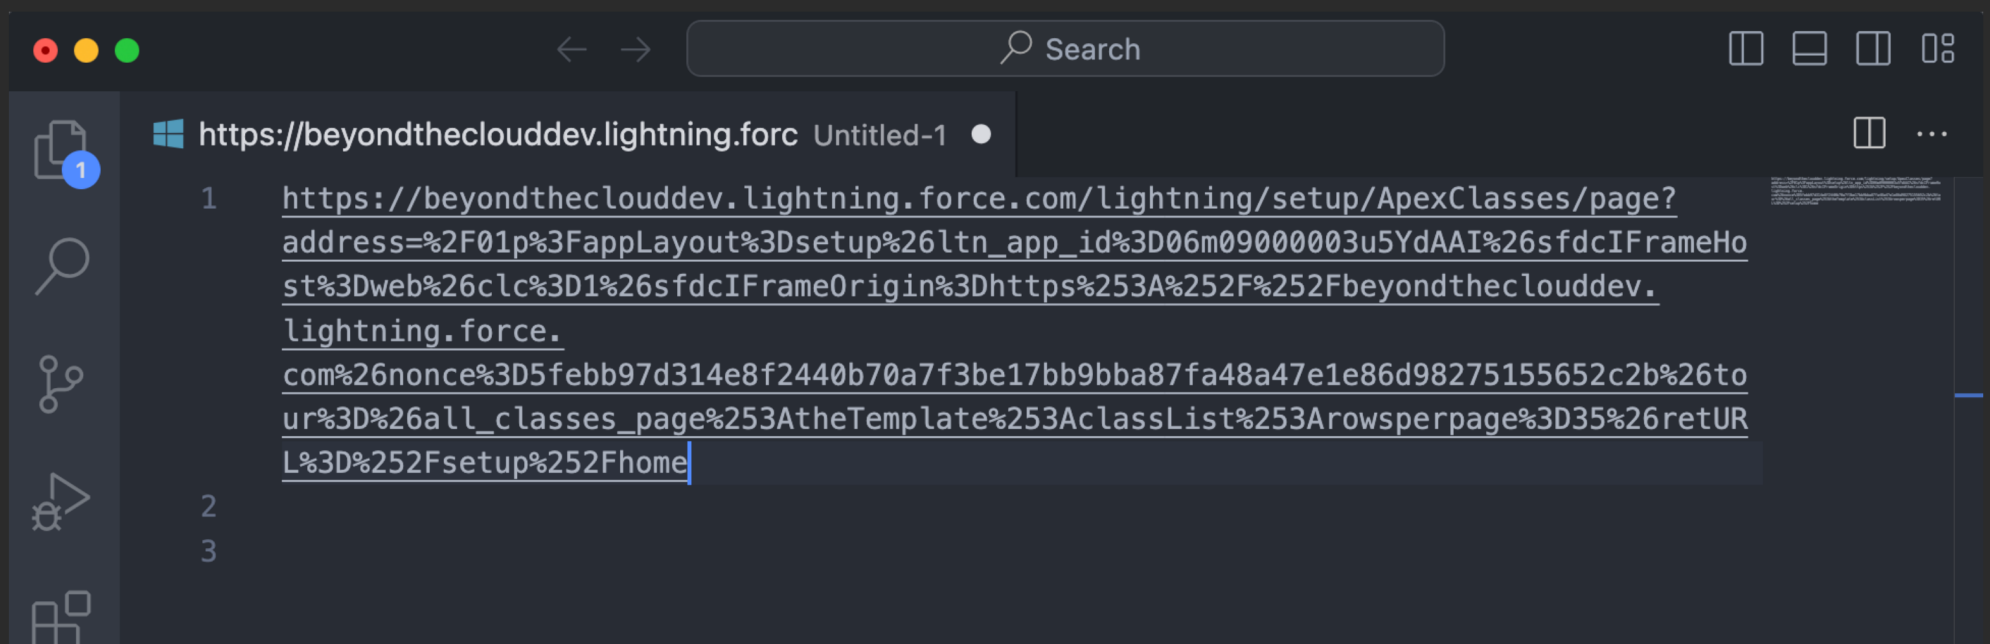

The URL will change to something like this

 <https://beyondtheclouddev.lightning.force.com/lightning/setup/ApexClasses/page?address=>

Now it's time for a little URL "Hacking"!

If you are doing it for the first time, the best would be to use a text editor

1. Copy the whole URL and paste it into the text editor

2. Search for “rows”

3. Change the number next to “rowsperpage” from 35 to 350000

```
1 https://beyondtheclouddev.lightning.force.com/lightning/setup/ApexClasses/page?
  address=%2F01p%3FappLayout%3Dsetup%26lt%3Dapp_id%3D06m09000003u5YdAAI%26sfdcIFrameHo
  st%3Dweb%26cl%3D1%26sfdcIFrameOrigin%3Dhttps%253A%252F%252Fbeyondtheclouddev.
  lightning.force.
  com%26nonce%3D5febb97d314e8f2440b70a7f3be17bb9bba87fa48a47e1e86d98275155652c2b%26to
  ur%3D%26all_classes_page%253AtheTemplate%253AclassList%253Arowsperpage%3D3500000%26
  retURL%3D%252Fsetup%252Fhome
2
3 > rowsperpage%3D35
4 > Change that "35" to some big number
5 > rowsperpage%3D3500000
6
7 [...]Arowsperpage%3D350000000%26retURL%3D%252Fsetup%252Fhome
```

4. Replace the old URL with a modified one and see all the records with this simple trick!

5. This works with Salesforce Classic as well! It is even easier there.

The below applies to the Salesforce Classic URL

```
d=ApexClasses&all_classes_page%3AtheTemplate%3AclassList%3Arowsperpage=35000|
etup%3Fsetupid%3DDevToolsIntegrate&setupid=ApexClasses&all_classes_page...
```
