

Easily navigate to any record

You don't need the full URL of a record page to display it.
All you need is the record ID:

<https://beyondtheclouddev-dev-ed.lightning.force.com/0017Q00000MhvxcQAB>

Simply paste the record ID after your domain, and you will be
redirected to your record page

<https://beyondtheclouddev-dev-ed.lightning.force.com/lightning/r/Account/0017Q00000MhvxcQAB/view>

This works for all standard and custom objects!
